

Prep On!

Empowering USC MSBA
Career Success with AI

Present Date: **Sept 27th 2025**

Present Team: **Unify**

The Client & Business Need

MSBA Students

- **Limited Opportunities**
(Hard to find practice sessions)
- **Generic Tools**
(Industry-specific)

MSBA Career Advisors

- **Time Constraints**
(Limited 1-on-1 support)
- **Scalability Issue**
(Cannot serve all students)

Objective

On demand, and Tailored Interview Preparation
for USC MSBA Students and Career Advisors

PrepOn looks to be a tool for Career Advisors

Keep up with the trends and changes in Industries

Ideation Sources

Workshops

Source: Team brainstorming

Insight: Opportunity to leverage AI for scalable, tailored prep

Tools

Source: Benchmarking existing tools

Insight: Costly, not MSBA-specific

Faculties

Source: Advisor input

Insight: Limited bandwidth for personalized support

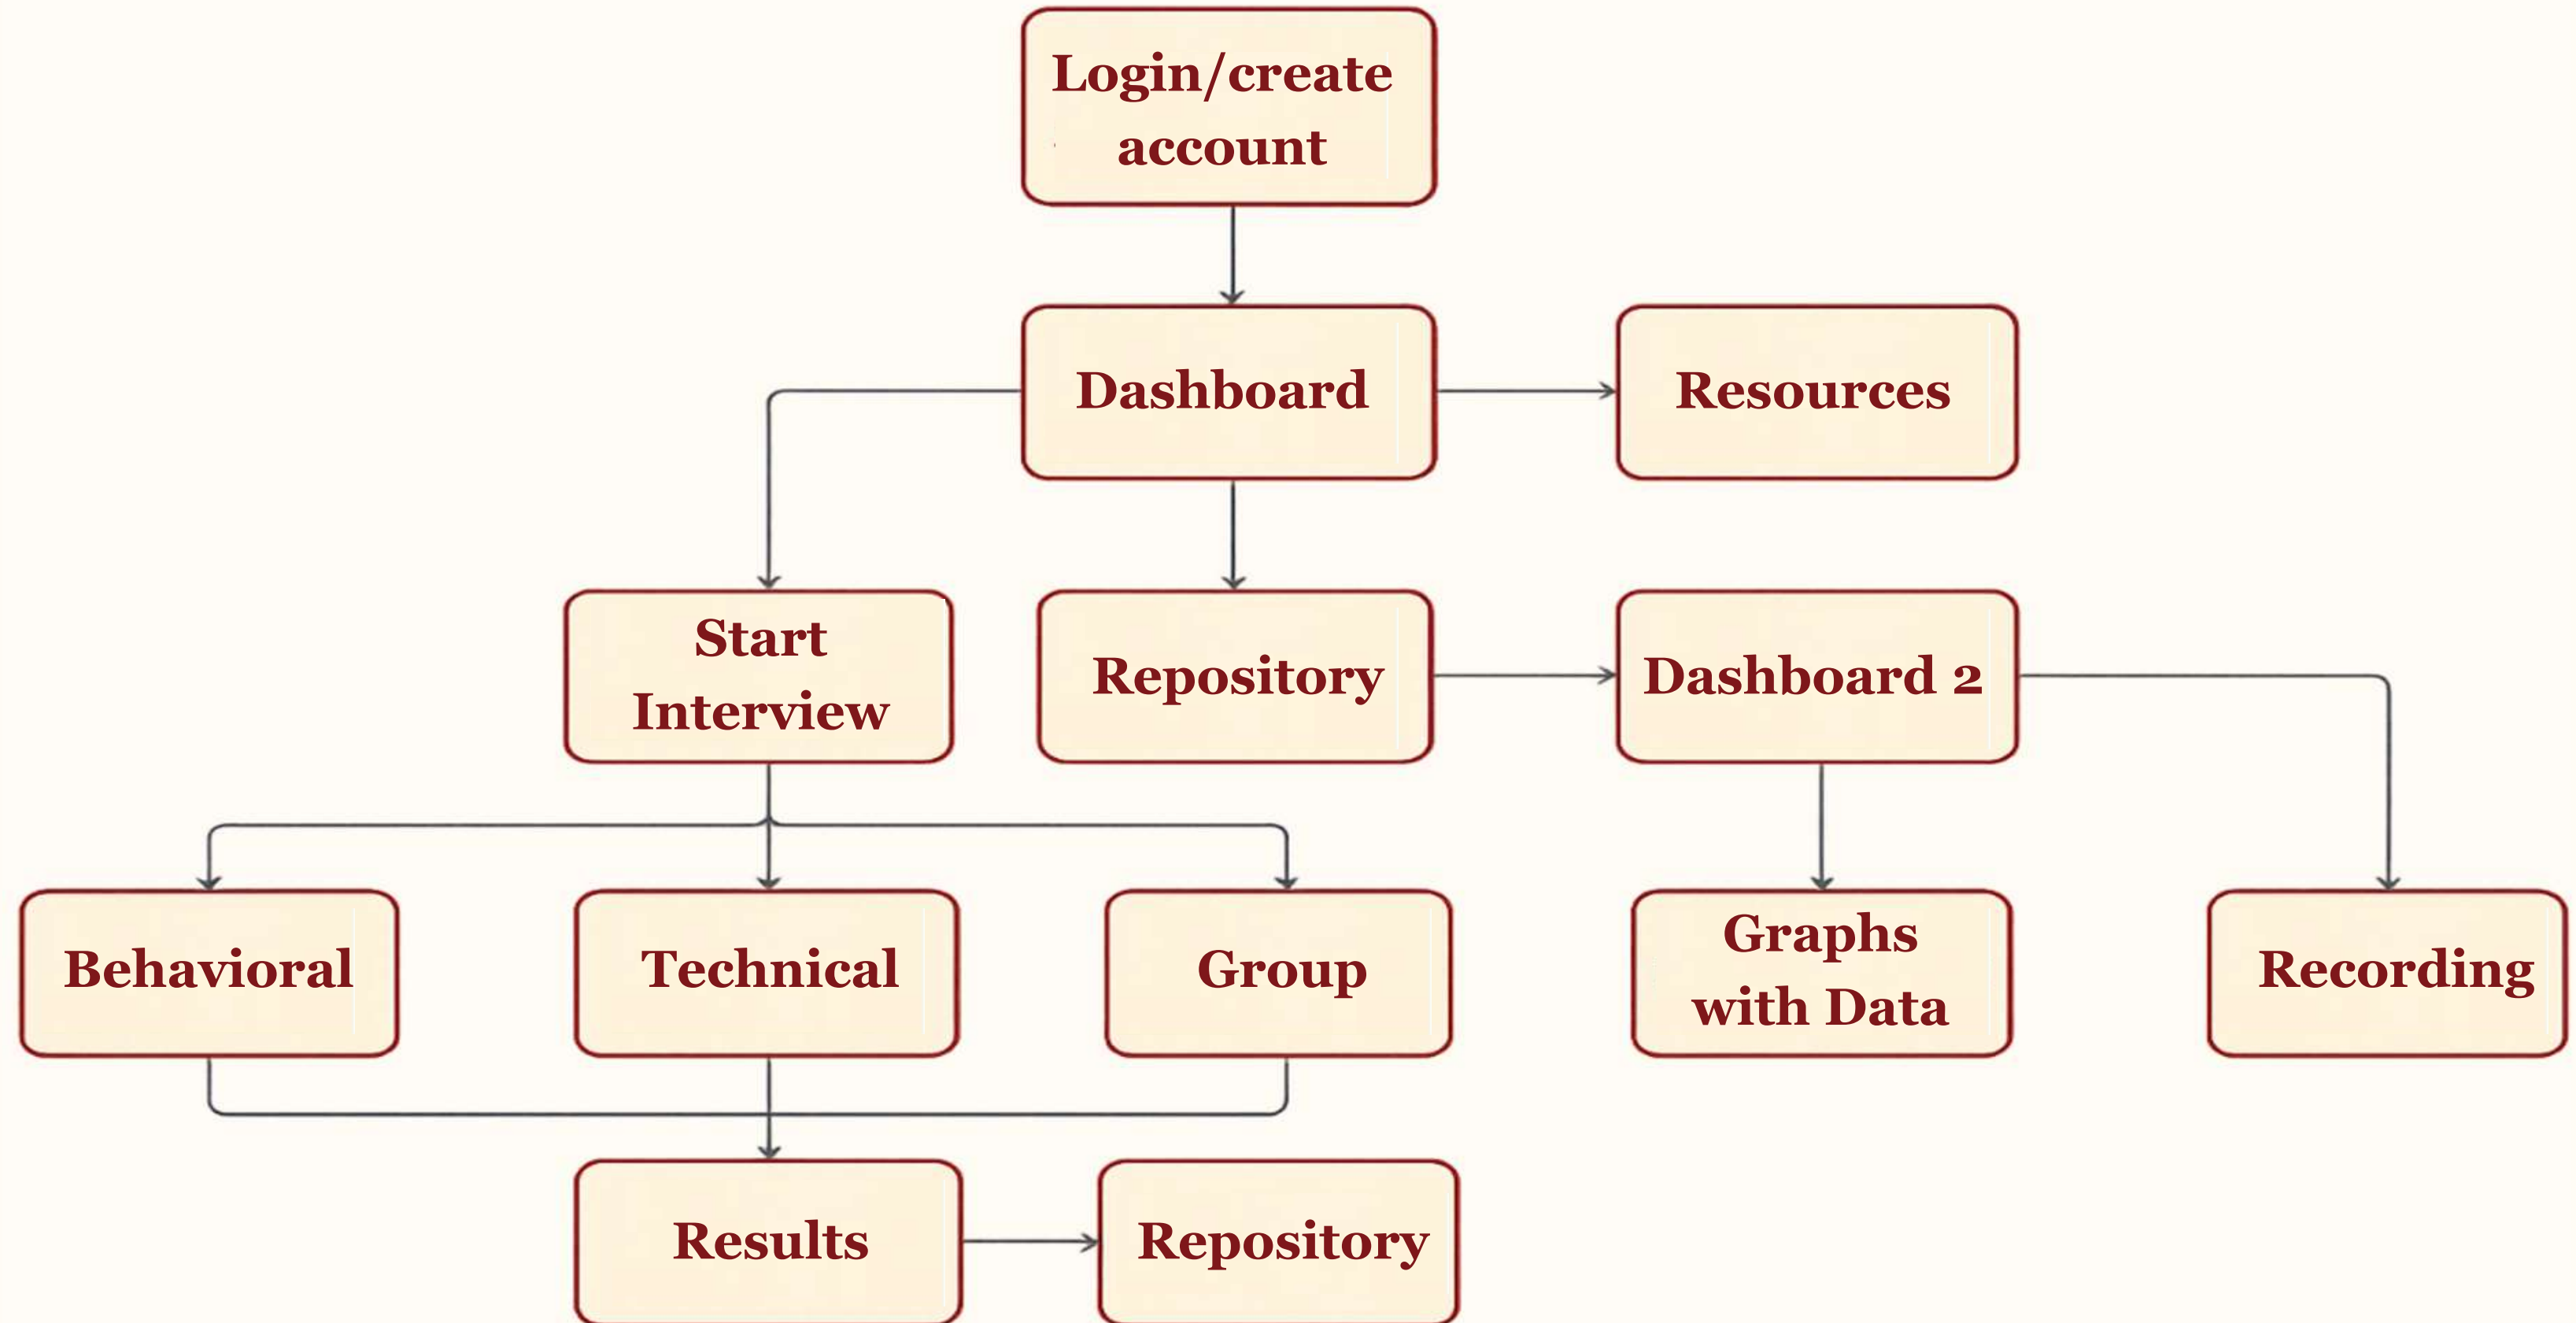

Peers

Source: Coffee chats & conversations

Insight: Recruiting is top priority, high interview stress

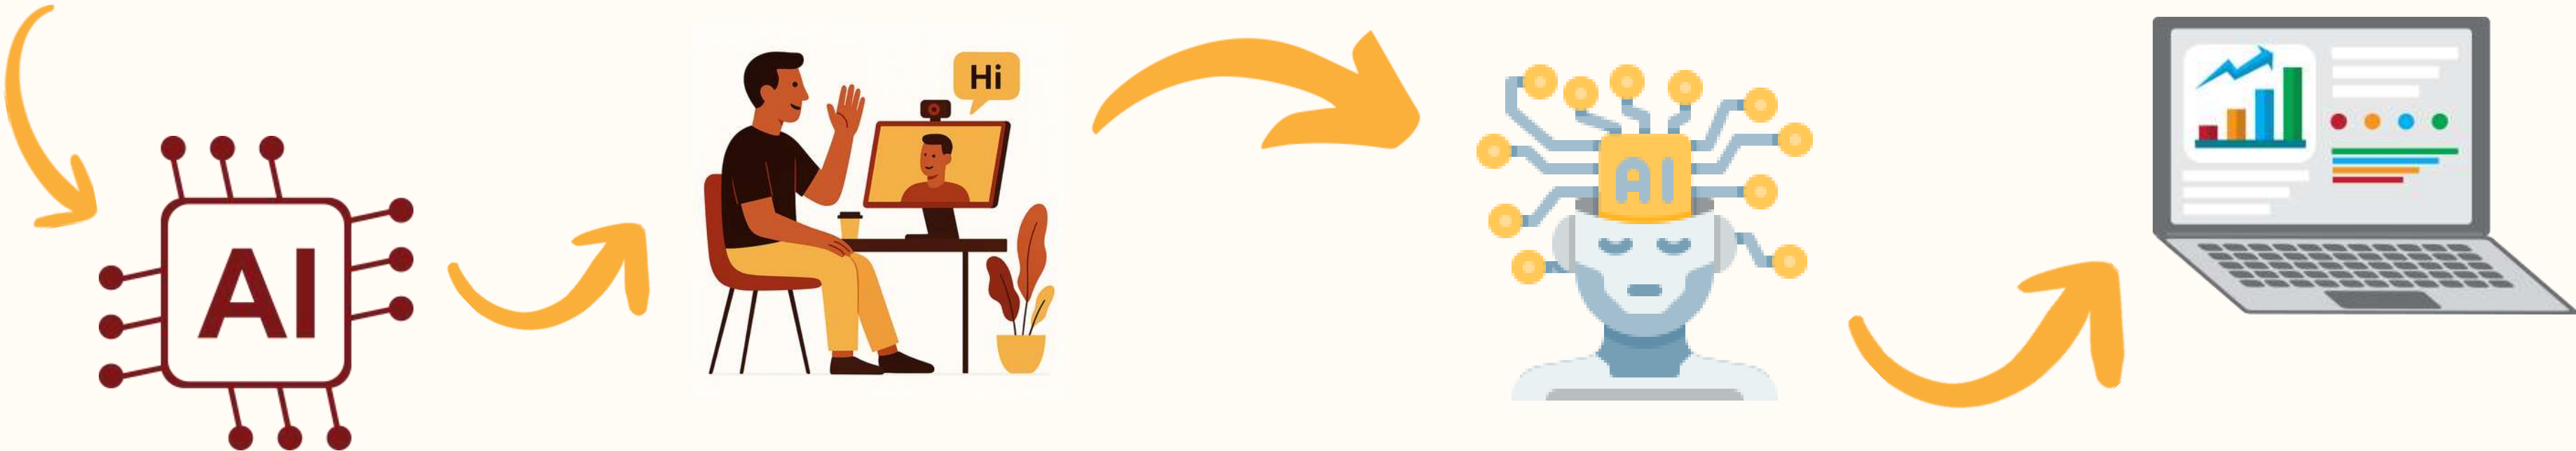

Wireframe

Methodology

Industry	Role	Interview Types	Interview Question	Industry Keywords
Hospitality	Business Analyst	Behavioral	“Tell me about a time you used data to improve customer experience.”	Customer satisfaction, operations, service
Hospitality	Strategy Analyst	Group Interview	“As a group, propose a strategy to increase hotel occupancy in off-peak seasons.”	Market trends, revenue management, pricing
Technology	Data Analyst	Technical	“Write SQL to find the top 5 products by revenue in the last quarter.”	SQL, Python, data visualization, analytics

CASE STUDY

Uber Driver Retention Challenge

Your team has been hired to improve Uber's driver retention rate, which has dropped 15% in the last quarter. Drivers are citing low earnings, long hours, and poor work-life balance as key concerns.

Key Deliverables:

- Identify the root causes of driver churn
- Prioritize solutions by impact and feasibility
- Propose 3-5 strategic solutions
- Present a recommended implementation timeline

Case Interview Tips

Structure First

Create framework before details

Fair Speaking Time

Ensure everyone contributes

Use Data

Rollout Phases & Driving Behavior Change

Phase 1 – Pilot

- Closed **beta** launch
- Feedback collection
- Usage tracking & iteration

Month 1

Phase 2 – Adoption

- **BASA & Career Services** promotion
- Event-based integration
- Alumni/faculty question bank

Month 2-4

Phase 3 – Expansion

- **MBA & program-wide access**
- SSO / LinkedIn integration

Month 4-6

Make It Easy

- Web/mobile access
- **One-click** start
- Quick onboarding/tutorial

Make It Rewarding

- **Instant** AI feedback
- Visual **progress tracking**
- Career Center endorsement

Make It Embedded

- **In-classroom** use
- Orientation & alumni promotion

Value Proposition

Personalized

- AI provides **detailed** insights on answers, tone, pacing, and body language

Track Progress

- Analytics **dashboard** shows improvement over time and highlights areas to focus on

Flexibility

- Conduct interviews at your **convenience** without needing a human interviewer

Realistic

- **Simulates** real interview scenarios with **diverse** industries, roles, and question types
